

# WHS LEADERSHIP

*different cards all from the same deck*

Washington HS is a 2a high school in Parkland which is a suburb of Tacoma. Located between JBLM and Pacific Lutheran University, Washington HS has the 9<sup>th</sup> most diverse student population in the country. We also have a free and reduced lunch rate near 75%. We have worked for over a decade to build a safe and civil school climate. On student survey's we have had up to 90% of our students say they were proud to attend WHS. Recently we have struggled to maintain that promise to our students. This is a summary of changes made in the last year to get back to that level of school pride
